

Brother Scan n Cut – Making a Fabric Applique

I love adding appliqué to my projects. It's always fun to sew cute appliqué animals to children's clothing, and adding all kinds of appliqué to quilts, table runners, cushion covers, etc.

And that's what I love about my ScanNCut. The pieces are cut easily and precisely, and as I cut my pieces out with the backing already attached, they are ready to add to my projects in no time at all.

This cute frog is one of the designs in your ScanNCut.

Check out the video below to see how easy it is to cut out your

appliqué pieces.

Tools & Equipment Used in this Project:

- Brother Scan n Cut Appliqué Sheet
- Brother Scan n Cut Standard Mat
- Brother Scan n Cut Machine
