

# Brother Scan n Cut Tutorial: Create a Wall Hanging

We were playing around with the shapes in Brother Scan n Cut and decided to make use of some of the great border patterns to create a wall hanging. Our video explains exactly how to do it.

Remember that you can make these wall hangings in any size that suits you, simply cut your material to the size you want.

The finished size of the wall hanging in the video is 15" x 17"

## Watch the video below

You can make seasonal wall hangings, baby wall hangings and there is a crown design in your Brother Scan n Cut that would make a cute design for your little princess, then, of course, there are cars and dinosaurs for your young man. Ideas will flow as you scan through the designs that Brother has included.
