To make these scarves you will need:

- water soluble interfacing

A variety of the following:

- wool threads
- fabric scraps
- Angelina fiber (optional)
- wool roving
- thread scraps

NOTE:

It does require a bit of sewing to put it all together but as long as you can sew a straight line on a sewing machine, you

can do this. And to be honest, the lines don't even have to be straight, so even if you are an absolute beginner you will be able to do this.
