

Easy Oven Mitt Tutorial: Made with 8 Moda Jelly Roll Strips

I really needed some new oven mitts so we decided to make use of our jelly roll strips and design an oven mitt.

It took a bit of thinking on our part to get this to work as we didn't want to use binding on the oven mitt.

Watch the video tutorial below

NOTE:

Most oven mitts of this type do have some binding to hide all the seams but our goal was to avoid that.

It turned out to be a really quick and easy method and even if you don't have jelly roll strips you can make this. Just cut some 2½" strips from your fabric stash.

You can even personalize these oven mitts by using fabric to

suit the person you are gifting them to. I mad my granddaughter Ishta some oven mitts using black fabric with sugar skulls on them.

Where Can You Buy FriXion Pens

- We mentioned that we use Frixion pens in the video.
- You can buy them in packs from Amazon here: [Frixion Pens](#)
