

Brother Scan n Cut Project: Christmas Gift Tags

These are super easy and a lot of fun to make so you will want to get the kids involved with this one. We used the Brother Scan n Cut to cut out some gift tags and Christmas shapes and then glued them together in a variety of different styles.

They look great and you will have some unique gift cards to attach to your gifts this Christmas.

Watch the Video to See How to Make These Christmas Gift Tags

Supplies Used in this Video

- Brother Scan n Cut
- Heidi Swapp Color Shines

- Our own home made ink sprays – watch the video here on how to make them yourself
