

How to Create Die Cut Photo Frames Using Brother ScanNCut Canvas

Creating photo frames for your scrapbooking or journaling projects is so easy using Brother Scan n Cut Canvas. In the video below we show you how to add words and shapes to your photo frames so that they are individual to your project or the person, you are creating them for.

Watch the video tutorial

There is really no limit to what you can create and the

outcome can be changed completely by using different types and colors of card stock.

NOTE:

We find the card stock keeps the photo frame sturdy but there is no reason why you can't use scrapbooking paper.

We hope you enjoy this project.
