

Brother Scan n Cut tutorial: Valentine's Heart Envelope

Valentine's day is fast approaching and in this video, we show you how to create a heart envelope template using the Brother Scan n Cut Canvas Workspace software.

All you need is one shape that you can find in Canvas Workspace and add a few scoring lines. Fun to make and once you have made one you can use it again and again and resize it as you please.

You can add a message to the inside of the envelope to make it personal to the person you are giving it to.

NOTE:

These heart envelopes aren't limited to Valentines' day, you can use them on other special occasions and they can also be added to your Scrapbooking and Art Journalling projects. .
