

# Sizzix Big Shot: Can it Cut Leather?

The Sizzix Big Shot is a versatile machine and it's great for scrapbookers and papercraft enthusiasts.

In the past, we did a video showing how the Big Shot cuts out 34 different materials. At the time we didn't have a piece of leather to try, so this video is in response to those of you who wrote asking if we could show how well the Big Shot cuts out leather.

**Watch the result in the video below**
