

Brother ScanNCut: How to Create Your own Stickers

We all know how expensive it can be to buy new stickers every time you have a new scrapbooking, art journal or card project to make

With your Brother ScanNCut, you can create endless stickers that you design specifically for your craft project.

Watch the video below to learn how to create your own stickers using the ScanNCut.

In this video, we show you just how easy it is to do.

- Simply print out the images that you want onto adhesive label paper, scan the page through your Scan n Cut and

cut out the image/s.

NOTE:

Sometimes when you create an image the Brother Scan n Cut may not recognize it. We found that adding a border to the image helps the machine to recognize it.

Just think how much money this is going to save you.

Do you love your Brother Scan n Cut? We certainly love ours.
