

Readers Project: Sharyn's Baby Rag Quilts

Note From Alanda Craft: Oh Wow, don't Sharyn's rag quilts look amazing. I love both quilts, they look really great, and I do like the bright colours she has used for the quilt she made for her grandson. Sharyn used our Rag Quilt tutorial to make these quilts, but she used 6½" squares instead of the 10" squares that we used. It just shows how easy it is to adapt the pattern for this quilt. Really love the quilts Sharyn, thank you so much for sharing your photos with us.

Sharon Says:

Hi Wanda, I made 2 rag quilts, the bright one for my New born Grandson, when I finished it I made a pink one for my Niece's 1st birthday.

I used the 3 layers of flannel as you did which made the quilts softer and fluffier, rather than the wadding in the middle which was how I made my daughter's quilt a few years ago. I cut the squares at 6 1/2 inches, 1/2 seams. I am so happy with how they turned out.

A very easy quilt to make. I only had a week to make the pink one and I had it done in just a few days. Thanks for a great tutorial which is so easy to follow. ??
