

# ScanNCut Canvas Tutorial – How to Make a 3D Banner

3D Banners can be used in so many of your scrapbooking and card making projects. They are so quick and easy to make using the ScanNCut Canvas software.

In the video below, we take you through the process of creating the 3D banner template in ScanNCut Canvas. Once the template is created, you can use it again and again for all sorts of different occasions. You can resize the banners, make them narrower or wider, shorter or longer, whatever size suits your purpose. And you can dress them up with embellishments to make them unique.

**Watch the video below for step-by-step instructions**

## **What You Will Need**

- Card Stock
- Embellishments of your choosing
