

# Readers Project – Charlotte's Cushion Cover with zipper

*Note from Alanda Craft:* Doesn't Charlotte's cushion cover, with zipper look great. I do like the fabric that she has used, it's quite striking. She has done a great job on her first zippered cushion cover, I am sure there will be many more to follow. Thank you for sharing a photo of your lovely cushion cover with us Charlotte.

See the links below for the video tutorial and step by step written instructions on how to make a cushion cover with a zipper just like Charlotte's.

## Note from Charlotte

Thank you so much for your video! So easy and straight forward and I'm chuffed with how well my cover came out! I've never sewn anything with a zip before so this was a first for me, I'm excited to make more! :)

**You can watch the video below on how to make a zippered cushion cover.**
